

# R.J.BEGG & ASSOCIATES

## CONSENT FOR IMPLANT SURGERY

- **OPTIONS** -- for missing teeth include:

1. Accept gap
2. Removable denture
3. Bridge - fixed or bonded to adjacent teeth
4. Dental Implant (s)

- **RISKS** -- of implant surgery include

1. Failure to integrate to the bone (success rate is approximately 96%)
2. Risk of gum recession and change in your gum contour
3. Bleeding and infection
4. Rarely numbness and sinus problems

- **ADVANTAGES**

1. Are independent of natural teeth and therefore minimise risk and compromise to your own teeth
2. Stronger than other options
3. Preserve bone

- **DISADVANTAGES**

More expensive than other options and involves minor surgery

- **GRAFTING**

Bone grafting and soft tissue grafting may also be required to augment the sites. This may be your own tissue or approved animal products.

### PROPOSED PROCEDURE
